About the project

YELC is part of the **Young European Lawyers Project (YELP)**, which is an initiative by the Academy of European Law (ERA), CCBE, EYBA, partnering Bar associations and the European Commission designed to empower the next generation of legal professionals across Europe and bridge the gap where EU law meets digital innovation.

YELP isn't just another training programme - it's a launchpad for young lawyers to thrive in an increasingly digital and interconnected Europe.

The project focuses on three critical areas:

- **Digital Mastery:** Equipping lawyers with cutting-edge tech skills
- **EU Law Expertise:** Ensuring confident and effective application of EU legislation
- **Advocacy Skills:** Learning from peers how to convince, conduct negotiations and plead before a judge.

Why YELP matters

YELP is a crucial initiative that addresses current gaps in the training of young legal professionals across the European Union. The project will reduce the gaps in training of young lawyers identified by the European Commission's European judicial training strategy for 2024 by giving young lawyers "a grounding in the EU legal system and legal culture in the course of their initial training" while addressing new developments such as digitalisation and new technologies.

Young European Lawyers Contest (YELC)

YELC isn't just a competition - it's a unique opportunity for young lawyers to develop their legal skills in an increasingly digital and interconnected Europe!

Format of the contest

The contest is composed of 3 semi-finals and one final.

Semi-finals

- The semi-finals taking place in Barcelona, Lisbon, and Brussels present an exciting opportunity for teams to defend their written report.
- Participants will, ahead of the semi-final, create a compelling written report addressing a relevant question in EU law with direct implications for everyday professional practice.
- Teams of up to four contestants from various EU Member States will be matched and introduced at least two months in advance through online communication.

Final

The two leading teams from each semi-final will participate in a final that lasts two and a half days. This event will take place at ERA's premises in Trier and at the General Court of the European Union in Luxembourg.

The final programme will include:

- a webinar offering the basics of EU law
- a crash course on how to litigate before the Court of Justice of the European Union
- a negotiation exercise
- a moot court at the General Court of the European Union, where the two winning teams from the negotiation exercise will compete in front of a jury made up of high-profile representatives from the legal professions and judges from the CJEU.

Aims of the contest

- to unite young and newly qualified lawyers, emphasising European law's vital role in shaping their future careers
- to collaborate in teams with peers from various European countries, engaging in practical role-play scenarios that challenge everyone to apply their knowledge of European law
- to gain invaluable experience working alongside colleagues from diverse legal cultures
- to build compelling cases in dynamic areas such as EU digital law, including the AIA, DSA, and DMA, the interaction of different data protection frameworks, EU efforts to stimulate the data economy and digital transformation, cybersecurity, and corporate mobility

Benefits of the contest

Contestants will be:

- empowered to incorporate EU law into their daily legal practice for greater professional success
- assessed by a jury of esteemed European law practitioners
- given precious feedback on their advocacy skills
- trained by their more experienced peers in drafting persuasive written arguments, conducting effective negotiations, and presenting their case before a judge
